IBI Global, an elite business club of entrepreneurs, professionals and business owners, is a network dedicated to increasing personal and business income. Their state-of-the-art entrepreneurial training and support delivers educational products useful to Entrepreneurs from start-ups to CEOs - IBI's Mission includes contributing to world peace through global entrepreneur education along with supporting Super Teaching smart classroom technologies for public and private schools.

Anyone working to increase business income or personal income may save time and reduce cost by attending an IBI Free Enterprise Forum training. Experts in such diverse fields as intellectual property law, security law, corporate law, marketing, manufacturing, import and export, publishing, music career development, communication, team building, networking, and more attend each IBI program. Attendees can acquire superior quality in service, for virtually any professional project, for less cost, in less time, using the IBI mentor network. CEO to CEO, "peer to peer" networking is a key magnet for each of the five annual programs. IBI is reported to be a superior practice management training for busy professionals.

Attendees developing capital for their projects will find IBI can help from start up to mezzanine, from factoring to import exporting, from going public to private investment banking. IBI is known world wide for helping those developing
